

**For the Children's Aid Societies of
Durham, Hastings, Kawartha-Haliburton and Northumberland**

Treatment Foster Care Program now recruiting foster homes

Is parenting one of the most highly valued skills in your family? Would you like to work at home? Are you willing to work hard, taken on new learning, experience new challenges and incredible satisfaction?

*Children are our future.
Consider making that future brighter.*

We are seeking Treatment Foster Parents to support our work with children in our Mixed Modality Program.

We would also consider social service professionals who are living in our sponsoring society's geographic area.

Mixed Modality is seen as a bridge between traditional treatment foster care programs and staff modeled settings. The caregiver and the child are at the centre of the treatment.

We provide the caregiver \$61.81 payment for each days care plus reimbursable expenses to cover daily living costs. Homes are able to take up to four children per home. We provide ongoing training, consultation 24/7, monthly relief, weekly supervision and a minimum of 30 hours of Child and Youth Worker support in your home on a weekly basis.

*Please consider joining our provincially recognized program.
We are creative, energetic, child focused, positive, therapeutic environment.*

**For more information, please contact the
Treatment Foster Care Program at 905-373-0522**
